Except where access is provided to an adjacent Flag Lot, the Interior Front Yard may extend at a right angle to the property boundary. The area outside of the interior front yard will be considered a side yard for the purposes of determining setbacks.

F. Existing Homes. Where a proposed development includes an existing home that is proposed to remain, the existing home must be located on a lot which conforms with the lot dimension, setback standards and area regulations of the underlying district. Provided however, as part of a plat approval, a lot for an existing home that is smaller than the minimum lot area or dimensions applicable to the underlying zoning district may be considered as a rule exception (18.460.210) provided that all setbacks can be met.
